

Agri-Hume[®]

Spar K

0-0-30

Guaranteed Analysis

Soluble Potash (K₂O).....30.00%

Derived from: Potassium Hydroxide and Potassium Acetate

ALSO CONTAINS NON-PLANT FOOD INGREDIENT(S):

0.4% Humic acid derived from Leonardite

Each gallon Contains: 3.66 pounds of K₂O
Density: 12.20 lbs/gal @ 68° F
pH Range: 11.5 -12.5

WARNING

KEEP OUT OF REACH OF CHILDREN

HAZARD STATEMENT (GHS-US): Can cause serious eye irritation. Causes skin irritation.

PRECAUTIONARY STATEMENT (GHS-US): Wash skin thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye protection, protective clothing, protective gloves. If swallowed: rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor if needed. Call a doctor if you feel unwell. Specific treatment (see the first aid section on this label). Wash contaminated clothing before reuse. Store in a well-ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container to comply with local, state, and federal regulations.

EPA National Response Center: (800) 424-8802

COMPATIBILITY AND MIXING INSTRUCTIONS

Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products, "Jar Test" proportionally mixed components to confirm compatibility. When blending with other products, trial blends should be conducted before beginning large scale mixing. **CAUTION:** Do not mix with conventional products containing the salts of heavy metals. Do not mix with conventional calcium or magnesium fertilizers. When mixing, follow these procedures:

1. Partially fill tank with water and start agitation.
2. Add Agri-Hume[™] Spar K to circulating tank mix.
3. Add other nutrients or pesticides.
4. Fill tank and agitate thoroughly.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

DIRECTIONS FOR USE

FOLIAR APPLICATION RATES:

Field crops, row crops, vegetables, and fruit crops: Use 1 to 4 quarts per acre in enough water to provide thorough coverage. Do not exceed a 2% concentration of product to water. If needed, application can be repeated every 2-4 weeks. Agri-Hume[™] Spar K may be applied through center pivot irrigation systems.

Orchards & vineyards: Use 1 to 8 quarts per acre in enough water to provide thorough coverage. Do not exceed a 2% concentration of product to water. If needed, application can be repeated every 2-4 weeks. In grapes, concentration should not exceed 1.5% and applications can be repeated every 2 weeks.

FERTIGATION APPLICATION RATES

Field & row crops, orchards & vineyards, vegetable & fruit crops: For each application, apply 1 to 20 gallons per acre. Irrigation must continue for a minimum of 2 hours after application to ensure the lines are flushed and that nutrient distribution is maximized with drip and microsprinkler use. It may be beneficial to repeat applications. For drip irrigation applications, inject after the irrigation filter. **Transplant water- field & row crops, orchards & vineyards, vegetable & fruit crops:** Apply 1 to 5 gallons per acre. Do not exceed a 3% solution of product to water.

SOIL APPLICATION RATES

Agri-Hume[™] Spar K can be applied pre-plant in a variety of different ways such as a starter, side dress, fertigated, top dressed, or banded to the soil. For more uniform distribution of product, dilute with water. Agri-Hume[™] Spar K can be used as a pop-up or in-furrow at a rate of 1/4 to 2 gallon per acre. **Field & row crops, vegetable and fruit crops:** Apply at a rate of 1 to 30 gallons per acre in a surface or subsurface band. It may be beneficial to repeat applications.

Orchards & vineyards: Apply 1 to 30 gallons per acre by injecting 3 to 5 inches deep at the drip line, or surface band and water into the soil. It may be beneficial to repeat applications.

CAUTION: Foliar application of Agri-Hume[™] Spar K close to harvest may leave a brown residue on the harvestable portion of the crop. Rainfall, sprinkler irrigation or high humidity should alleviate this condition.

CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources, LLC (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition, of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
