

# CROP OIL

## GENERAL INFORMATION

**CROP OIL** is a combination of surfactants and superior paraffinic oil designed for use with agricultural chemical spray programs to optimize product performance by increasing penetration into the leaf surface, giving more uniform wetting and more uniform distribution of the active material. Provides improved retention of pesticide deposits under adverse weather conditions.

## GENERAL RECOMMENDATIONS FOR USE

Preparation of Spray Material: **IMPORTANT:** Read pesticide label before using this product.

1. Fill spray or mix tank with one-half to three-fourths the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide and then the remaining volume of water and mix the contents thoroughly.
3. Add the required amount of this product and continue agitation until a uniform mixture is obtained.

**NOTE:** Maintain constant agitation of the spray mixture during standing and application to assure uniform pesticide application.

## COMPATIBILITY

**CROP OIL** can be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides now on the market. Conduct a simple jar test if compatibility is in question.

## DIRECTIONS FOR USE

Use in strict accordance with pesticide label cautions, warnings and other directions. **CAUTION:** Keep container tightly closed. **DO NOT** allow water to be introduced to contents of this container. In the treatment of new varieties or highly inbred lines, a test area is suggested. Do not use **CROP OIL** in sprays while the crop is under stress, such as extremes in temperature, humidity, moisture, etc.

Use when the crop is actively growing. **CROP OIL** should not be used with any product whose label recommends against the use of an adjuvant.

**Defoliants, Desiccants:** Use 1 to 4 pints of **CROP OIL** per acre in combination with the recommended defoliant or desiccant.

**Insecticides, Fungicides:** Use 0.5 to 2 pints of **CROP OIL** per 100 gallons of spray solution in combination with the recommended pesticide.

**Herbicides:** Use 1 to 4 pints of **CROP OIL** per acre in combination with the recommended herbicide. Exercise caution with selective herbicides.

## PRINCIPAL FUNCTIONING AGENTS:

Paraffinic Petroleum Oil .....	83.0%
Poly fatty acid esters and polyethoxylated derivatives thereof .....	17.0%
Total .....	100.0%

## KEEP OUT OF REACH OF CHILDREN

### WARNING Hazard Statements

Causes serious eye irritation. Harmful if swallowed.

#### FIRST AID

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

**IF SWALLOWED:** Rinse mouth. Call a poison control center or doctor if you feel unwell. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious or convulsing person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rise skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

#### PRECAUTIONARY STATEMENTS

**WARNING:** Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse.

#### PERSONAL PROTECTIVE EQUIPMENT

**Applicators and other handlers must wear:** Chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks. Wear eye protection/face protection.

#### ENVIRONMENTAL HAZARDS

**For terrestrial uses:** Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

**Note:** The above use recommendations are considered to be adequate for most uses. Some pesticides, however, may require higher rates for optimum effect. Follow the pesticide label directions when this occurs. However, do not add this product at a rate which exceeds 2% of the finished spray volume.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

**PRODUCT DISPOSAL:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

**NOTICE:** The statements made on this label are believed to be true and accurate but because of conditions of use which are beyond our control, Mar Vista Resources, LLC, does not make nor does it authorize any agent or representative to make any warranty, guarantee or representation, expressed or implied, concerning this material or the use thereof, except in conformity with the statements of the label. Neither Mar Vista Resources, LLC, nor the seller shall be held responsible in any manner for any personal injury or property damage or loss resulting to the buyer or to the other person from handling, storage or use of this material not in accordance with the directions. The buyer assumes all risk and liability resulting from improper handling, storage or use and accepts and uses this material on these conditions. This product meets EPA requirements under Title 40 CFR 180.

NOT FOR AQUATIC USE
