

# FertiClear®

## Refuel®

**7-2\*-16**

### Guaranteed Analysis

Total Nitrogen (N) .....	7.00%
2.51 % Urea Nitrogen	
4.49 % Water Soluble Nitrogen	
Total Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ).....	2.00%
Soluble Potash (K <sub>2</sub> O).....	16.00%
Zinc (Zn).....	0.40%
0.40% Chelated Zinc	

**Derived from:** Urea, Methylene Urea, Triazone, Potassium Phosphite, Potassium Carbonate and Zinc EDTA

**Each gallon contains:** 0.78 pounds of N  
0.22 pounds of P<sub>2</sub>O<sub>5</sub>  
1.78 pounds of K<sub>2</sub>O  
0.04 pounds of Zn

**Specific Gravity:** 1.3301 g/ml

**Density:** 11.10 lb/gal

**pH Range:** 10.0-11.0

### GENERAL INFORMATION

FertiClear® Refuel® 7-2\*-16 has been designed for foliar applications it will prevent or correct nutrient deficiencies in a wide range of agronomic and ornamental plants. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

Application of FertiClear® Refuel® 7-2\*-16 works efficiently in obtaining a quick response to needed elements. Foliar applications of FertiClear® Refuel® 7-2\*-16 will provide benefits during periods of peak nutrient demand, for crops grown on soils having poor nutrient availability or to crops suffering from a weakened root system.

\*Phosphorous acid products are intended to be used as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions or are utilized directly by plants as phosphite ions. As a soil application to annual crops, a lesser response from the initial crop with a corresponding superior response from succeeding crops may be observed. In addition, placement close to seeds or root zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.

FertiClear® Refuel® 7-2\*-16 should be used as part of a comprehensive system for optimizing plant growth, development, yield and quality.

### DIRECTIONS FOR USE

FertiClear® Refuel® 7-2\*-16 may be applied as a foliar spray by air, ground concentrate or dilute. To provide uniform distribution within spray tank agitation is recommended. Use of a high quality Mar Vista Resources adjuvant at recommended rates is usually advised for optimizing product performance. Do not apply when plants are under excessive heat or moisture stress. Applications of foliar nutrients to leafy vegetables or soft-skinned fruit during periods of excessive temperatures may cause cosmetic injury. Applications of certain micronutrients to fleshy fruit within 30 days of harvest may result in staining of rind or skin.

**IN-SEASON APPLICATIONS:** Foliar: Apply up to 2 gallons per acre. Avoid applications of FertiClear® Refuel® 7-2\*-16 during bloom. Soil: Apply 1-5 gallons per acre through irrigation systems or as direct soil application as needed.

**POST-HARVEST APPLICATIONS:** For post-harvest applications on permanent crops, use 3-7 gallons per acre.

If specific recommendations are needed please contact a Mar Vista Representative.

### COMPATIBILITY

Always jar test new combinations for compatibility prior to field mixing.

**WARNING:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

### CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
