SEAWEED EXTRACT

Guaranteed Analysis

Soluble Potash (K₂O) 5.00%

Derived from: Seaweed Extract (*Ascophyllum nodosum*) and Potassium Sulfate

MarVerde™ is a versatile liquid seaweed (*Ascophyllum nodosum*) extract for commercial agriculture.

APPLICATION GUIDELINES

MarVerde™ is suitable for use in any foliar, soil applied, or irrigation water application. It can be applied to seed, seed pieces, bulbs, tubers and cuttings. Apply in early morning or late afternoon for best results. Allow foliar product to dry on plant prior to overhead irrigation. Use a spray adjuvant with MarVerde™ for superior coverage.

APPLICATION RATES

General recommended application rates are 1 to 4 pints per acre. Please see back panel for specific crop applications. Applications can be made either foliar or through drip/microsprinklers

STANDARD MIXTURE

For smaller areas, use 2 oz. MarVerde™ per gallon of water.

SEED TREATMENT

To coat seeds prior to planting, use 2 oz. per gallon of water. Apply directly to seeds, peat pot planting mixture or seed bed.

ROOTING & TRANSPLANT SOLUTION

To encourage root growth and enhance vigor in new fruit, ornamental tree, and vine transplants, dip cuttings in a MarVerde™ solution of 8 ounces per 5 gallons of water before rooting. For use as a rooting medium, set cuttings in a solution of 2 ounces per 5 gallons of water. Immediately before transplanting, dip roots in a 4 ounces per 5 gallons of water solution.

MIXING GUIDELINES

Use a minimum of 1 U.S. gallon of water carrier per per 1,000 sq. ft. Fill mix tank with half of required spray water and turn on agitation. Measure product into tank, add remaining water and other soluble materials. This product is compatible with most fertilizers and other spray materials. Conduct a jar test as needed.

STORAGE AND USE PRECAUTIONS

Store in original containers at temperatures above freezing. Mix with other materials only at time of application and in exact amounts required. Do not return previously mixed product to its original container.

KEEP OUT OF REACH OF CHILDREN. May be harmful if swallowed. Avoid contact with eyes, skin, and clothing. If irritation occurs, seek medical attention. This product is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required during the course of the year.
