

FertiKarb®

BASE

Guaranteed Analysis 0-0-1

Soluble Potash (K₂O).....1.00%

Derived from: Molasses

Density: 9.08 lbs/gal @ 68F
pH Range: 5.0-6.0
Specific Gravity: 1.088 g/ml

PRECAUTION

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENT (GHS-US): Avoid breathing mist, spray, vapors. Wash face, hands thoroughly after handling. Use only outdoors or in a well ventilated area. Wear eye protection, face protection, protective gloves.

If on skin: Wash with plenty of water.

If inhaled: Remove person to fresh air and keep comfortable for breathing.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a doctor if you feel unwell.

If skin irritation occurs: Get medical advice/attention.

If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Store in a well-ventilated place. Keep container tightly closed.

EPA National Response Center: (800) 424-8802

GENERAL INFORMATION

FertiKarb® Base is formulated primarily for foliar applications to prevent or correct potassium deficiencies in a wide range of agronomic and ornamental plants. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

COMPATIBILITY

FertiKarb® Base is compatible with most liquid fertilizers, insecticides, fungicides, herbicides, and nematicides. Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products a "jar test" is recommended.

Information regarding the contents and levels of metals in this product is available on the internet at:
<http://www.aapfco.org/metals.html>

DIRECTIONS FOR USE

FertiKarb® Base may be applied as a foliar spray by air or by ground. Maintain agitation to provide uniform distribution within the spray tank. Thorough and even spray coverage is essential for maximum nutrient uptake and crop safety.

Optimum rate of application will vary based on a variety of factors including degree of need or deficiency, growth stage, yield potential, environmental conditions, existing soil fertility levels, etc.

Mix 3-5 gallons per acre in sufficient water for thorough coverage. Apply to foliage on almond trees beginning at early pink bud and as desired during the pollination period.

CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources, LLC. (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.
