

Iron 5%

Organics

DIRECTIONS FOR USE

FOLIAR APPLICATION:

It is recommended that GreenFurrow Organic Iron 5% if applied to actively growing plants with young leaves be sprayed immediately following irrigation or rainfall for maximum foliar uptake. Thorough coverage and wetting is crucial to optimize foliar spray results.

A minimum of 7-14 days is recommended in between applications. If plants are under moisture stress then application should be avoided. Do not apply to deciduous trees during bloom.

Dilute Sprays: In order to minimize phytotoxicity on sensitive foliage, applications at a rate higher than 2 quarts per acre should be split into two less concentrated applications.

Concentrate Sprays: Up to 1 quart in a minimum of 25 gallons per acre may be applied. *Aerial Sprays:* Use up to 1 quart per 5 gallons of spray. However, more dilute solutions will produce more coverage and results.

SOIL APPLICATION:

GreenFurrow Organics Iron 5% should be applied to field grown crops, row crops and vegetable crops at the lower rates while fruit, nut tree, and vine crops can be applied at the higher rates.

- Soil fertility maintenance.....1-3 quarts/acre
- Mild deficiency.....2-6 quarts/acre
- Severe deficiency.....1-3 gallons/acre

Fertigation: Split applications 1-2 weeks apart using the recommended amount of product early in the irrigation cycle to assure all nutrient is flushed from the system into the soil.

CONDITIONS OF SALE AND WARRANTY

Mar Vista Resources (Seller) warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case shall Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by Seller and is accepted as such by the buyer. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of Seller's liability.

If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. Store in a well-ventilated place. Keep container tightly closed.

EPA National Response Center: (800) 424-8802

GENERAL INFORMATION

GreenFurrow Organic Iron 5% has been specifically formulated to help with iron and sulfur deficiencies. This product is a completely water-soluble aqueous solution. GreenFurrow Iron 5% may be applied alone, with pesticides, or with other fertilizers to the soil or foliage using ground sprayers, aircraft, and fertigation systems.

COMPATIBILITY

GreenFurrow Organic Iron 5% is compatible with most liquid fertilizers, insecticides, fungicides, herbicides, and nematocides. Use in accordance with recommendations of qualified individual or institution such as, but not limited to, a certain crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. When tank mixing other products a "jar test" is recommended.
